ELEGANT KITCHENS
The kitchen is the most important room of a home, hands down. So why do we neglect style when choosing equipment for it? Introduce hardware that adds a finishing touch to your kitchen. Hafele offers a variety of sink materials—from Hafele's patented and sustainable SILGRANIT™ sinks, to many other corrosion resistant, stainless steel sinks that come with installation options, and varied load sizes each of which offer its own advantages. Don't forget to look away from chrome grilles and opt for understated cabinets inspired by innovative storage ideas by Hafele. What about those messy spills and drips under the sink? Avoid them with the Aqua UnderSink-Mat, which absorbs liquids, and prevents them from damaging your cabinet base.

FOR EVERY AMBIENCE
Wouldn't it be nice if you could add a distinguished look to your favorite crystal vase or wall painting? Or what if you could provide the functionality of illumination to all your drawers in the kitchen? With Hafele's versatile range of luminous light you can do all that, and more. Available for a multitude of applications, these LED lighting solutions conserve energy while lending a subtle charm to every room. Now you can add decoration to your shelves, functionality to your drawers, and accentuate your furniture—with Hafele's eco-friendly lighting solutions, which emit superior quality so that you don't lose out on style or safety.

ADVERTORIAL

Hafele appreciates the diverse needs of every family, and thus offers a range of efficient recycling systems for a variety of cabinet sizes.

WASTE MANAGEMENT
Recycling is a novel idea, but who has the time to sort through everything that goes in the garbage bin. What if, there was a recycling system that made this tedious task easy by helping you recycle at the source? Hafele appreciates the diverse needs of every family, and thus offers a range of efficient recycling systems for a variety of cabinet structures. Also available in many size options, depending on your waste segregation needs, these systems are crafted to fit every budget and application. Opt for their under-mount trash cans for the kitchen island, so that you can throw vegetable peels without budging from the seat. Want something close to the sink? Try their bottom-mount trash cans. Extremely sturdy and durable, they can be installed in 10 minutes with just four screws. All that you need to do is pull them out, and do away with the junk.
